

OVERDENTURES: FROM SURGERY TO RESTORATION

INSTRUCTOR: JILL WEBER DDS

2 CE HOURS | 6 PM TO 8 PM | COST: DENTISTS \$75, ALLIED STAFF \$50

RECOMMENDED AUDIENCE:

Dentists, Hygienists, EFDA's, Assistants, Treatment Planners

SYNOPSIS:

This course is designed to review basic concepts of implant osseointegration and treatment planning for implant overdentures. We will review requirements for implant placement in both maxilla and mandible as it pertains to locator-based implant restorations. Medical history requirements and/or disqualifiers will be discussed for implant surgery candidates. Several case studies will be presented for the general dental to consider reviewing with their patients.

COURSE / LEARNING OBJECTIVES:

- Review basic implant physiology and osseointegration
- Discuss indications/contraindications for implant supported dentures
- Review surgical options for patients with case review from surgery to completion
- Discuss treatment planning tips for improving case acceptance in both dental and surgical offices
